GROW Science | Autumn 1, Weeks 3-7 | Visual edition

This addendum records the images used in the visual edition and supplements the pack guide.

Contextual illustrations

The friction block, wooden lever and ramp pictures are AI-generated contextual teaching illustrations. They support the lesson openings and do not show measured experiments, pupil observations or recorded practical evidence.

Earth photograph

NASA, Apollo 17, The Blue Marble (1972). Used in the Week 6 lesson openings.

<https://science.nasa.gov/resource/the-blue-marble/>

Moon photograph

NASA, full Moon photograph accompanying Moon Phases. Used in the Week 7 lesson openings.

<https://science.nasa.gov/moon/moon-phases/>

Teaching models

The explanatory diagrams are simplified scientific models. Where relevant, sizes and distances are schematic rather than to scale. Contextual pictures are separate from the practical evidence pupils collect.
